

FOR THOSE WHO NEED SUPPORT ON THEIR TRAVELS...

Half the size of our full size enVy Pillow ... but just as good in bed. The travel pillow provides optimal spinal alignment, deep therapeutic sleep and of course the anti-aging benefits of all our pillows. We took the core of the full size enVy® pillow and created a compact portable version. Now you can have the neck support, comfort and Anti-Aging benefits on all your travels.

enVy ToGo Pillow

** Comes with custom fitted 100% Bamboo pillowcase and Satin travel bag with handy straps so you can roll up and go*

GET THEM THEIR OWN ENVY PILLOW ... THEY ARE GOING TO STEAL YOURS ANWAY!

The unnatural forward head leaning as they use their devices is creating neck, back and health issues in children as young as 7yrs. But the computer age is here to stay and the posture of our children is a new worry for parents.

My Big enVy Pillow

Having our kids sleeping in proper alignment for ANY part of their 24 hr clock is worth investing in.

** Comes with custom fitted 100% Bamboo pillowcase with a Satin travel bag for camp and sleepovers.*

ANATOMY OF ENVY®

THE SWEET SPOT

Centre raised ventilation and pillow sweet spot for optimal neck and head support.

Each enVy® pillow comes fully loaded with its own TRAVEL BAG PLUS 100% custom-fitted BAMBOO OR SILK PILLOW CASE!

THE SUPPORT

Two optional levels of neck support and elevated sides cradle head and maintain optimal spinal alignment with slight neck traction.

THE SHAPE

Gull-wing shape promotes clearance from delicate facial tissue, minimizing face-to-pillow contact.

Dust mite resistant, latex-free, temperature and humidity resistant OmniTemp™ memory foam.

GO TO SLEEP WITH OUR ENVY® ...AND WAKE UP TO THEIRS

Kim Renton and I are registered nurses who not only saw a need in the aesthetic market but in the wellness market as well. Originally created as a sleep aid for post facial surgical "off your face" positioning ... the enVy Pillow offers much more. Kim is a nurse injector/trainer (Allergan) and has years of experience performing and consulting on Botox and Facial Filler procedures. She realized what cosmetic dermatologist have long known – that side and stomach sleepers develop deep lines on their faces from 'squishing' them into their pillows every night.

Coming from a professional background as a plastic surgery/cranial-facial surgery nurse, and more importantly from a personal background of 40 years with Harrington rods after Scoliosis Surgery, I insisted that the perfect pillow should also provide the cervical spinal support necessary to ease or prevent chronic neck and back pain. Two and a half years of research and development later ... enVy, the Anti-Aging and Wellness Pillow was born.

We wanted to Sleep with the best ... We want you to sleep with the best too.

Kathy Young Keefe, R.N.

ARE YOU SLEEPING WITH THE BEST?

enVy
The Anti-Aging/Wellness Pillow

THE ONE PILLOW THAT ALIGNS YOUR SPINE, REDUCES WRINKLES AND GIVES THE BEST SLEEP OF YOUR LIFE.

The enVy® Pillow Line of Therapeutic Neck Support, Anti-Aging Pillows are designed for both side and back sleepers. It is carefully constructed using the highest quality Canadian-Made, Omni-Temp Memory Foam*. The revolutionary new memory foam available from the enVy Pillow Co ensures your pillow stays soft and supportive ... even when the temperatures drop below freezing. This highly breathable memory foam, with 40% more air flow, is molded to provide proper alignment and weight distribution for both the head and neck. This means less tossing and turning and a peaceful restorative sleep.

The most overlooked cause of headaches and neck pain is the misalignment of the neck vertebrae. The chiropractic-endorsed enVy Pillow's ergonomic design helps to improve spinal imbalances by maintaining correct neck and spinal alignment. This means less muscle strain, less headaches and pain AND the proper airway positioning in the treatment of sleep apnea.

Although sleep is essential to keeping skin looking youthful, the position in which we sleep can actually have a negative impact on our skin's appearance. Pushing our delicate facial tissue into a pillow for hours every night will, in time, press unwanted "sleep lines" into our face. As we age these wrinkles become increasingly permanent and are often mistaken with those of naturally aging skin.

The "OFF-Your-Face" positioning is what truly sets the enVy Pillow line of pillows apart from the rest ... Anti-Aging!

It starts with...

The enVy™ Rx

The original enVy Rx pillow is available only through our authorized dealers.

This therapeutic neck support pillow allows for back and side sleeping, and provides the Anti-Aging/Wrinkle "OFF-Your-Face" patented design. All our pillows' memory foam and pillowcases are naturally anti-allergenic and resistant to dust mites. ANTI-AGING, ANTI-PAIN.

* Comes with custom fitted 100% bamboo pillow case and satin travel bag.

We added
COPPER...

The enVy™ COPPER

The enVy COPPER pillow has the same patented design as the enVy Rx, BUT we infused the open cell breathable memory foam with cooling COPPER, which is naturally anti-microbial, anti-inflammatory, anti-oxidant and collagen promoting, and dissipates heat 16x faster than traditional memory foam pillows. ANTI-AGING, ANTI-GERM, PRO-COOL.

* Comes with custom fitted 100% bamboo pillow case and satin travel bag.

We added
SILK...

The enVy™ SILK

The enVy SILK is our "Cadillac" Pillow. Same "OFF-Your-Face" V-Shape patented design as ALL our Anti-Aging Pillows, BUT we ramped up the beauty sleep by adding the softest, luxuriously smooth, 100% Mulberry SILK pillowcase. Mulberry SILK is a hypoallergenic, highly breathable, natural fabric which does not absorb moisture from your skin. The amino acids present in SILK have shown benefits to health and creating a calming effect. It improves hair conditions and delays the onset of wrinkles. ANTI-AGING, ANTI-BEDHEAD.

* Comes with a custom fitted 100% Mulberry SILK pillowcase and satin travel bag

“For years we have educated clients on the need for SPF to protect against premature aging related to the sun. Anti-aging procedures can be costly. It is time we educated our clients on the affects side sleeping can have on the formation of sleep lines and the enhancement of facial asymmetry. enVy® A must have for anyone interested in protecting their face and their investment!”

— Dr. Sharon McQuillan

“The enVy Pillow has shown an outstanding acceptance by users. In a sleep laboratory in Mississauga, Ontario, 80% of subjects demonstrated a significant improvement with more refreshing sleep, energy during the day and this pillow was far superior to any other pillow for neck comfort.”

— Dr. M.R. Goolam Hussain - Tri Hospital Sleep Lab

“The enVy Pillow is ergonomically designed to off-load the pressure from your face and get side sleepers back onto their backs. EVEN if you do sleep on your side, the enVy pillow still adjusts your head up so the weight is not there.”

— Dr. Julia Carroll - Dermatologist

Dr. Samuel J. Stegman, a well-known Cosmetic Dermatologist, observed that most people tend to exhibit stronger facial creases and asymmetry on their preferred sleep-side.

He stated that changing one's sleep position is the only way to significantly decrease or eliminate these "sleep lines." Fortunately, the enVy® Pillow's ergonomic design allows a comfy way to sleep with minimal face-to-pillow contact whether we sleep on our back OR our sides.

The enVy Pillow is ideal for recovery from face lift surgery, eye surgery, post cosmetic procedures such as dermal fillers and botox™, IPL, laser, dental/orthodontic work and for TMJ relief.

Endorsed AND slept on by Chiropractors, Physiotherapists, Plastic Surgeons, Dermatologist, Sleep specialists, RMTs and Anti-Aging experts.

* Omni-Temp™ Memory Foam is the safest memory foam on the market and is free of PBDE or any other fire retardant, formaldehyde, CFCs, toluene di-isocyanate and dyes.
